SUMMARY REPORT ON ACTIVITIES

2021-22

In the 2021-22 WeR4Help initiative, various activities were undertaken to promote environmental sustainability, community welfare, and social responsibility. On World Water Day, plantation drives, watering initiatives, and campus cleaning activities were organized. A survey was conducted to assess community needs, and the Disha app was promoted for sensitization.

The Energy Swaraj Yatra focused on promoting sustainable energy practices. Additionally, efforts were made to provide beds and support orphanages, including visits and the Green Ganesha campaign. The WeR4Help initiative encapsulates a diverse range of activities aimed at making a positive impact on society, fostering a sense of responsibility and compassion.

Event: World water day

Date: 22-03-2022

Place: Gayatri Vidya Parishad college of engineering(autonomous)

Beneficiaries: To promote sustainable energy practices and make a positive impact on the environment and communities.

Event Description: The club conducted an event which was hosted by our President to which C.V. Nageswara Rao sir and Dean Administration (Student Affairs) were invited. The Chief guest has been invited to the event. He explained the amount of water available, used, and wasted. He spoke about the water scarcity and the circumstances that would be faced by the future generations. He provided water testing kits to test the purity of the water. The students were motivated by the chief guest's speech and decided to save the water.

Event: Plantation, watering, and campus cleaning:

Date: 18-04-2022

Place: Gayatri vidya parishad college of engineering(A)

Beneficiaries: these practices foster a collective sense of responsibility and environmental stewardship, strengthening community bonds and ultimately creating safer, more sustainable, and more vibrant spaces for everyone to enjoy and thrive in.

Event Description:

Firstly, the club volunteers took the initiative in watering the plants in the college at the CSE department and then actively participated in cleaning the premises of our college to maintain the premises of our campus clean and hygienic. Then the volunteers of the club took part in planting the plants in the plantation area near the CSE department.

Event : : Survey

Date: 15-05-2022

Place: Swatantra Nagar

Beneficiaries: The process of surveying a village directly benefits the community's residents, local authorities, development organizations, and the broader process of informed decision-making and policy development.

Event Description: Firstly, the volunteers were taken safely to the area of residence of the families that were to be surveyed. The instructions were given by the team leads and the volunteers were divided into three groups out of which one group surveyed Asi Santhosh Kumar and family, who is suffering from pott's paraplegia sacral ulcer. After gathering the information regarding his health condition, we came to know that he needs an air pressure bed that would treat his wounds. The team provided the family with the groceries required for a month of worth Rs.1000 and cash of Rs 500. Another group surveyed Thamada Padma and family, who is suffering from Thyroid Cancer.

Event: GREEN GANESHA

Date: 29-08-2022 to 30-08-2022

Place: GAYATRI VIDYA PARISHAD COLLEGE OF ENGINEERING (Autonomous).

Beneficiaries: Using eco-friendly materials and practices reduces the environmental impact of celebrations by minimizing pollution, reducing waste, and conserving resources.

Event Description: "Green Ganesha" represents an environmentally conscious and sustainable approach to celebrating Ganesh Chaturthi, a revered Hindu festival dedicated to Lord Ganesha. In this eco-friendly rendition, the focus shifts to adopting practices that minimize the environmental impact of the festivities. The hallmark of a "Green Ganesha" celebration is the use of biodegradable materials, such as clay or paper mache, for crafting Ganesha idols, thus eschewing non-biodegradable substances like plaster of Paris. Natural, eco-safe colors and organic offerings are employed, while efforts to reduce waste and plastic use are paramount. These sustainable choices extend to the immersion process, which is carried out in designated areas to safeguard natural water bodies.
